

TDR offer **Apprenticeships** in **Engineering, Science** and **Business Administration** and all 3 are very popular with school leavers. TDR would encourage interested students to apply as early as possible, by clicking on the following link <https://tdrtraining.co.uk/apply-for-apprenticeship/> and completing the online application form.

On receipt of this application, eligible students would be interviewed by a member of TDR, and if successful, their information would be sent to employers who are looking for Apprentices.

Selection at this stage will lead to an interview with the employer, and hopefully an offer of employment.

Below is some more information about the Apprenticeships we offer:

### **Engineering**

<https://tdrtraining.co.uk/apprenticeships/engineering-manufacturing/>  
**Science**

<https://tdrtraining.co.uk/apprenticeships/science/>

### **Business Administration**

In addition to TDR's Apprenticeship offer, students who are unsuccessful in gaining an Apprenticeship, have found our **Engineering Apprenticeship Access Programme (EAAP)** a valuable pathway that enables them to progress onto an Engineering Apprenticeship. For more information on the **EAAP** select the link below:

<https://tdrtraining.co.uk/apprenticeships/engineering-apprenticeship-access-programme/>

The following link is a case study of where the **EAAP** has proven successful
